Soft Skills: Adaptability, Team Leadership, Communication, Attention to Detail, Team Collaboration

Experience

Corextreme Technologies | Junior Backend Developer | 07/2024 – 08/2024 (Internship)

- Team Lead for a team of 8 Junior developers consisting of Frontend and Backend developers.
- My team and I worked on an open-source project called FeaturesZone. This is a platform to share code snippets and components with AI-generated explanations, fully integrated with GitHub for snippet and contributor management.

Acreaty Ghana Ltd - Data Verification Executive | 31/08/2020 – 03/01/2023

- **Data Extraction and Digital Transformation**
 - I proficiently used Recogniform, a robust document recognition and data capture application, to expertly extract data from diverse document formats, ensuring maximum efficiency and accuracy.
 - I contributed in the conversion of client information from paper-based records to dynamic, easily accessible digital formats, which significantly contributed to streamlined data management and improved accessibility.
- **Enhanced Data Accuracy and Workflow Efficiency**
 - I used Recogniform software to carefully verify and validate customer information, ensuring data was accurate and trustworthy.

Ellen Weremipoah Ntiamoah

- I excelled at streamlining data entry processes by seamlessly integrating Recogniform into document-heavy workflows, significantly boosting efficiency, reducing errors, and improving overall operational smoothness.

Ghana Investment Fund for Electronic Communications (GIFEC), Community Information Centre (CIC) – Abokobi | National Service Personnel | 2020 – 2021

- Maintained the comfortability of students at the IT center.
- Ensured that all computers are in good shape daily and reported and faulty machines to the appropriate department.
- Ensured all concerns of the teachers, students and parents with regards to the IT center were channeled to the appropriate authorities.

Education

MEST Africa - Generation, Accra, Ghana

Web Development (Backend Development)

05/2024 - 07/2024

Projects and Experience:

- **Developed and Designed Projects:** Developed the APIs for various web projects, including a portfolio website and an events website, using Express Framework, MongoDB, JavaScript and Node.js.
- **Collaboration:** Collaborated with a team of four, including frontend and backend developers, to build and integrate features like user authentication, dashboards, and dynamic content.
